And Counsellor at Law. Practices in Mason and adjoining counties. Office in building of Wadsworth & Son.

L. W. GALBRAITH,

ATTORNEY

And Counsellor at Law. Practices in the courts of Mason and adjoining counties. Prompt attention paid to collections.

W. S. YAZELL,

Second Street, Fifth Ward,

PHYSICIAN AND SURGEON.

Office opposite Collins & Rudy's Planing Mill.

SAMUEL PANGBURN,

North Side of Third Street,

PHYSICIAN AND SURGEON.

Office 31 Third Street, West of Market.

D. P. G. SMOOT,

—Homeopathic—

PHYSICIAN AND SURGEON.

Office Hours—7 to 9 a. m., 1 to 3 p. m., 7 to 9 p. m. Office, No. 34 Second St., late Dr. Holton's office.

C. W. WARDLE,

DENTIST.

ZWEIFART'S BLOCK.

DEWITT C. FRANKLIN,

DENTIST.

WEST SUTTON STREET.

T. H. N. SMITH,

DENTIST.

EAST SECOND STREET.

DR. PARIS WHEELER,

Office at Daulton Bros.' Stables,

VETERINARY SURGEON.

Cures all cases of lameness or no charge. Has a blister from French school that will not blanch.

J. J. FITZGERALD,

Successor to T. J. Curley,

SANITARY PLUMBER

And Steam and Gas Fitter. All work done in the best manner. Satisfaction guaranteed.

M. R. GILMORE,

Granite, Marble and

FREESTONE WORKS.

All kinds of Monumental work done in the best manner. Second street, above opera house.

A. SORRIS,

Second Street, Near Limestone,

LOCK AND GUNSMITH.

Repairing of all kinds done promptly and on reasonable terms.

S. D. THOMPSON,

Adjoining P. J. Maley's Grocery,

LOCK AND GUNSMITH.

Locks adjusted, Keys fitted, Guns, Bicycles, etc., repaired. House Smithing a specialty.

Pure! Brilliant! Perfect!

USED EVERYWHERE, AND ENDORSED WHEREVER USED.

THE MOST POPULAR GLASSES IN THE U.S.

They are daily worn and are warmly praised by the solid Representatives of this country, many of them being of National fame. The list embraces Bankers, Merchants, Lawyers, Governors, Senators, Foreign Ministers, Mechanics, Presbyters, and Eminent in all Professions and Trades.

PHYSICIANS RECOMMEND THEM.

Buy none but the genuine. These perfect glasses are accurately adjusted to all eyes at the drug store of Power & Reynolds.

FOREIGN EVENTS.

Funeral of the Late Count Ludwig Von Arco-Valley.

ONLY A SIMPLE CEREMONY.

But a Very Few People Present at the Chapel—The Count's Last Instructions—Minister Phelps Remembered—Other Cable Dispatches.

BERLIN, Oct. 17.—The funeral of the late Count Ludwig Von Arco-Valley, minister of Germany to the United States, took place at 10 o'clock yesterday morning in the chapel attached to Professor Bergmann's hospital. Only his brother and sister, Baron Marshall Von Rottenberg, secretary of state, and the members of the Bavarian and United States legations were present.

The body was dressed in the red uniform of a Knight of Malta, and upon the dead man's breast were the orders which had been conferred upon him at different stages of his career. The coffin was covered with floral wreaths and palms. The body will be placed in the family vault at Munich, Bavaria.

The last instructions of the count were given to his sister shortly before he underwent the operation which immediately preceded his death. The count asked her to express his heartfelt thanks to United States Minister Phelps for his unvarying kindness. A few minutes later the count placed himself in the hands of Professor Bergmann and his assistants and was operated upon for hernia.

Collision of Steamers.

PARIS, Oct. 17.—A Toulon dispatch says that two small steamers, each crowded with 200 passengers, collided in the harbor at that port yesterday. A panic at once ensued, the passengers rushing frantically about in search of the life-saving apparatus. Many of the half-crazed people made a rush for the boats, while others attempted to pass from steamer to steamer in the belief that the spot of greatest danger was the particular one they happened to stand upon.

Several of the passengers on the colliding vessels were flung into the sea by the violence of the shock, and were with extreme difficulty rescued from drowning. Both steamers were badly damaged, and were kept aloft barely long enough to enable the passengers to reach the shore. Many of the women were seriously prostrated by terror, and some of them became hysterical as they were being conveyed to land.

Our Pork in France.

PARIS, Oct. 17.—Before customs commission of the senate yesterday M. Ribot, minister of foreign affairs and M. Roche, minister of commerce, advocated the raising of the prohibition from American pork and the substitution of a duty of twenty francs. Several members of the committee opposed the bill. A proposal by M. Ferry to postpone discussion until Saturday was rejected. M. Ferry thereupon declared that he would resign the presidency. Efforts were made to reconsider the vote.

Tenement House Fire.

LONDON, Oct. 17.—Yesterday morning in a tenement house fire in the dock district, known as Millwall, an old woman of seventy, a young woman, and three children were burned to death.

EVANGELICAL CONFERENCE.

The Factional Differences Reported to the Indianapolis Meeting.

INDIANAPOLIS, Oct. 17.—The committee on transactions and annual conferences made its report to the German Evangelical conference yesterday, and it proved to be a complete recital of the factional differences that have arisen and have ended in a division. Appended was a resolution, which was adopted, declaring that all persons supporting or participating in the disorganizing movement have thrown off their allegiance to the church, and are not entitled to membership.

The committee also reported that the annual conferences held in the districts of Illinois, Des Moines, Oregon and East Pennsylvania were lawful and regular. The election of the fourteenth member of the appellate court resulted in the choice of Rev. G. D. Vetter, of Chicago.

Encouraging Navigation.

HALIFAX, N. S., Oct. 17.—The French government and the colonial government of St. Pierre have just announced that a subsidy of \$14,000 a year will be given to a line of steamers to carry mails and passengers to and from St. Pierre and Halifax. It is also proposed to offer a handsome subsidy to a steamer to run to and from St. Pierre, Boston and New York.

Foundry Burned.

EVANSVILLE, Ind., Oct. 17.—At 2 o'clock yesterday morning, Officers Serber and Ruesler discovered flames issuing from the foundry and pattern shop of George L. Mesker, corner of First and Ingle streets. The department was on hand promptly, but could not save the building. Loss, \$40,000; insurance, \$11,500.

Hit Him with a Spade.

COLUMBUS, O., Oct. 17.—Henry Cousins, colored, Friday morning struck Mike McGurn over the head with a spade while working at the United States barracks. It is believed that McGurn will die from the effects of the wound. Cousins is under arrest.

Why He Murdered His Wife.

SCRANTON, Pa., Oct. 17.—D'Ayala, the wife murderer, yesterday made a statement declaring that he killed his wife because she admitted having been unfaithful to him. Her mother had previously told him the same story.

BASE BALL.

Twelve Clubs in the Next Year's American Association.

LOUISVILLE, Oct. 17.—There are to be twelve clubs in the Association next year. This is almost certain, and is the scheme which Von Der Ahe, Phelps and the other magnates have been working upon of late. The following cities are those which will next year make up the Association circuit: Louisville, St. Louis, Chicago, Kansas City, Cincinnati and Milwaukee in the west, and Boston, Baltimore, New York, Brooklyn, Washington and Philadelphia in the east.

As will be seen Kansas City and Cincinnati are to be annexed in the west, while Columbus, a very poor ball town, is to be dropped. In the east New York and Brooklyn are to be added. There is a little doubt as to whether Kansas City or Sioux City is to be admitted. Outside of this the circuit has been about fixed up.

COTTON REPORT.

Largest Movement Ever Reported to Washington.

NEW ORLEANS, Oct. 16.—Secretary Hester's weekly New Orleans cotton exchange report shows the largest movement of cotton during any single week in the history of the trade. The amount brought into eight during the week ending tonight was 499,851 bales, against 385,197 for the corresponding seven days of last year, making the total thus far for the season up to date, 1,796,213, against 1,687,859. Shipments to northern spinners exceed this week last year 25,771 bales. Southern mill takings 83,877 against 83,343.

The total takings of American mills north and south and Canada thus far for the season have been 363,868 against 355,314 last year.

A Mysterious Death.

ST. LOUIS, Oct. 17.—Emma Schaberg, a young woman residing at 2701 Washington avenue, died under mysterious circumstances yesterday morning. Miss Schaberg was a teacher and had been employed in the Lincoln kindergarten school. It is claimed she had been dependent for some time owing to a local paper's attack on the virtue of the public school teachers, and it is said, labored under the impression that a detective was constantly shadowing her. She took Paris green. She was highly regarded as a devout Christian and a member of one of the most respectable families in the west end.

Ground to Death.

PHILADELPHIA, Oct. 17.—James Little, aged nineteen, was literally ground to death yesterday by a train on the Pennsylvania railroad at Point House road. He was one of a crew engaged in drilling freight cars. Little ran ahead of the engine to open a switch, when one of his feet caught in the frog of the track. He tried to extricate the foot, but finding it was impossible called to the engineer to stop, but it was too late. In an instant he was knocked down and out in two by the wheels of the locomotive.

Dark and Double Deed.

CANTON, O., Oct. 17.—Thursday afternoon Lottie Lacy, a negro girl about fifteen years of age, was shot and instantly killed by Charles Hawkins, also colored, in the girl's home in Dorn alley, at which Hawkins was a boarder. Hawkins then turned the revolver upon himself, inflicting wounds which caused his death. The tragedy was caused by a quarrel. The tragedy occurred in the woman's home. It is understood that Hawkins quarreled with the girl after she had refused to receive his attentions.

Strike Settled.

HALIFAX, N. S., Oct. 17.—The protracted strike which originated with differences between Reardon and his men about the employment of apprentices, and which affected nearly all branches of the building and manufacturing business of the city, has been settled, and the men in the painting, as well as in other trades, will resume work today. On the apprentice question the indenture system as adopted by the Bricklayers' union, of Boston, has been agreed to.

Will Fight It Out in Court.

EL PASO, Tex., Oct. 17.—The sheriff on Monday took possession of a large plot of ground in the center of the town by order of the district court, ejecting therefrom the United States soldiers who have so long held possession for the government. Yesterday Major Hintoo, acting under orders from General Stanley, retook the plot and ejected the sheriff's representative. A bitter fight in the courts is anticipated.

A Private Hanging.

MADISON, Ga., Oct. 17.—Alec Morris was hanged in private in the county jail at noon yesterday. He had professed religion and blamed his wife for having led him into committing the crime. About four years ago Morris murdered his wife's father and mother in Morgan county. He arose during the night and decapitated the old people with an ax. He failed in a similar attempt on his wife. After four years as a fugitive he was captured.

Benedictine Monk Dead.

PITTSBURG, Oct. 17.—Brother Andreas Brider, the first and oldest Benedictine monk in the United States, was buried in the Monastery burying ground at Latrobe, Pa., yesterday. Brother Andreas was born in Eiselfinger, Bavaria, in 1812. In 1846 Brother Andreas, with thirteen other pilgrims emigrated from the Mother House in Bavaria to the United States and selected Latrobe, Pa., as a site for the erection of a monastery and college.

Ex-Governor Hale Dead.

BROOKLYN, Oct. 17.—Ex-Governor Samuel W. Hale, of New Hampshire, died Friday at the residence of his brother, H. A. Hale, in this city.

CENSUS BULLETIN.

Traffic on the Rivers of the Mississippi Valley.

UPPER AND LOWER TRADE.

Number of Vessels Engaged in the Traffic. Tons of Freight Carried—Passengers Transported—Other Dispatches from the National Capital.

WASHINGTON, Oct. 17.—The census office yesterday issued advance copies of a bulletin which will be issued shortly on traffic on the rivers of the Mississippi valley. Taking up the divisions for the matter of equipment, it is found from the census returns that on the upper Mississippi and its tributaries there were in 1889, 283 steamers, 348 unriggered craft, a total of 631 of all crafts.

On the lower Mississippi and its tributaries, there were 282 steamers, 272 unriggered craft, making a total of 554 craft.

On the Ohio river and its tributaries, there were 537 steamers, 5,708 unriggered craft, making a total of 6,245 craft.

From the reports of those actually engaged in traffic, it is found that in 1889, 8,637 tons of freight were carried on the Red River of the North, 6,373,448 tons on the upper Mississippi and its tributaries, 9,080,526 on the lower Mississippi and its tributaries and 15,600,439 on the Ohio and its tributaries, a total of 31,058,030 tons of freight moved on all the rivers of the Mississippi in 1889.

The grand total of passengers carried for all the rivers of the Mississippi valley of 2,384,248 regular and 8,474,046 ferry, a total of 10,858,894.

In analyzing the freight traffic it is shown that the six principal commodities were wheat, cotton, coal, iron ore, lumber and forest products, and cotton seed and cotton oil. The movement of these different commodities were as follows: Wheat, 1,071,504 tons; cotton, 689,635 tons; coal, 10,632,109 tons; iron ore, 536,197 tons; lumber and forest products, 10,531,239 tons; cotton seed and cotton oil, 392,988 tons. Other items of which there was a large movement, were: Corn, 266,071 tons; animal products, 169,470 tons; sugar and molasses, 189,829 tons, and iron manufactures, 122,060 tons. Of mill products there were moved 88,709 tons, of hay, 78,635 tons, while of unclassified freight there was a movement of 5,816,096 tons.

Cruise in the Behring Sea.

WASHINGTON, Oct. 17.—Captain Shepard, chief of the revenue marine division of the treasury, has received a report from Captain Hooper, commanding the revenue steamer Corwin, dated Sitka, Alaska, Sept. 20, giving a detailed statement of the cruise of that vessel in Behring sea during the past season, including his action in warning the vessels against a violation of the modus vivendi. He tells of a visit to the haunts of the sea otter hunters, and says that the utter disregard of the law against the killing of sea otters threatens to result in the extermination of those animals in a few years. He suggests that means be taken to secure a strict enforcement of the law for the protection of these animals.

In closing his report Captain Hooper says that the increasing commerce of Alaska makes it necessary to have decided improvements in the customs service at that port.

Indians as Soldiers.

WASHINGTON, Oct. 17.—Officials of the Indian office, speaking with regard to the report of General Merritt, of the army, who complained that the enlistment of Sioux Indians as soldiers in the regular army has been interfered with by the action of the Indian office in refusing to issue rations to Indians enlisted as soldiers, Mr. Bell, who was acting commissioner at the time the instructions were issued, said that General Merritt evidently prepared his report before they were promulgated. The issuing of double rations to Indians, as soldiers, was at first opposed by the Indian bureau, but Secretary Noble ordered that the rations be allowed.

Workman's Neck Broken.

WASHINGTON, Oct. 17.—A huge block of sandstone that had been raised to the fifth story of the McGill building in course of erection here, fell yesterday, striking a scaffold in its descent, and hurling Thomas Payne, a workman, to the ground. His neck was broken. The falling debris struck Morris Wright, a negro laborer, and Tillie Webster, a thirteen-year-old school girl. Wright was taken to the hospital suffering with contusion of the brain, while the little girl received severe scalp wounds.

Killed by a Train.

WASHINGTON, Oct. 17.—George M. Mehler, aged thirty-five years, an engineer on the Baltimore and Ohio railroad, was struck by a train of that road yesterday and instantly killed. He tripped over a signal wire and fell in front of the engine.

OHIO PRESBYTERIAN SYNOD.

Something About the Weak Churches of the State.

WASHINGTON, C. H., Oct. 17.—The synod of Ohio had before it the interests of "Weak Presbyterian Churches in the State," yesterday. The synod provides almost wholly for all its feeble churches, while contributing more than \$40,000 for home mission work elsewhere. Missions among freedmen are receiving great attention from the Presbyterian church.

Last year \$155,000 was contributed. The Presbyterian hospital and Women's Medical college at Cincinnati was indorsed and commended to the churches. Last night observance and temperance were considered. The synod took decided action with reference to open the Columbian exposition on Sunday and the sale of liquor in Congo Free State. The synod adjourned to meet next year at Delaware, O.

SAVED FROM THE WRECK.

Sixteen Sailors Belonging to the Brig Alice.

JACKSONVILLE, Fla., Oct. 17.—Captain J. I. Bowling and the crew of sixteen men belonging to the brig Alice, of Baltimore, arrived in St. Johns river late last night, on the schooner, Julia A. Warr, of Calais, Me. The Alice was abandoned last Wednesday about forty miles south of Lookout Light.

Captain Bowling tells the following story: "We left Rio Janeiro Aug. 25, with a cargo of coffee, for Baltimore. He had beautiful weather up to Oct. 3, when we ran into a hurricane. The vessel was severely strained by her rough usage by wind and water, and after being buffeted about for a few hours it was found that she had sprung a leak. The pumps were in constant use from that day until Oct. 12, when they became choked and had to be abandoned. All this time the vessel was in the midst of a succession of gales, and despite the hard work of the crew, the water gained perceptibly.

"When the pumps became disabled the crew was set to work bailing the vessel out of the forehatch. Here they worked until Tuesday morning, when they became completely fagged out and dropped exhausted on the deck, one after another. Early Wednesday morning it was seen that the ship would not keep afloat much longer, and it was decided to abandon her." The boat was soon afloat, into which the captain and crew entered. They laid to near the Alice, and after a few hours the schooner Warr came along and took them on board.

Half an hour later the Alice went to the bottom. The cargo of the Alice was insured, but the vessel was not. The captain and crew saved their personal effects. All show signs of their fearful privations, but are in a very cheerful mood over their timely rescue. They leave for Baltimore by rail tomorrow.

ROBERT RAY HAMILTON.

His Wife Refuses to Believe He Died in Montana.

ALBANY, Oct. 17.—Mrs. Robert Ray Hamilton was seen at the Delevan House by a United Press reporter in regard to The Sun's account of the disinterment and inquest of Robert Ray Hamilton.

"It seems as if the trouble will last forever," she said.

"Have you ever had any doubt of Mr. Hamilton's death?"

"I have always doubted it. I did not believe the former stories, and I do not believe this one. I am quite confident that Mr. Hamilton is alive."

"You however have no proof to offer in that direction?"

"Is it not proof enough that they make no endeavor to have his body brought here to rest with the other members of his family? Is it not proof, I say, that they let him lie there buried like a dog? They say they cannot bring the body on without my consent, yet they have never asked my consent in the matter."

"You don't then believe in this inquest?"

"No; why did his family wait a whole year before they had this inquest made? Is it likely at this time a decomposed body can be recognized?"

"What about the peculiar marks which the physicians recognized upon the body?"

"They are nonsensical and untrue. Mr. Hamilton had very sound teeth."

"Your conclusion of the whole matter is what then?"

"That my husband is still alive, and that I shall surely see him some day," and tears came into Mrs. Hamilton's eyes as the reporter rose to leave.

FOUNDERED AT SEA.

Part of the Crew of the Ill Fated Wolveston Picked Up.

HALIFAX, N. S., Oct. 17.—Brigantine Arctic has arrived at Harbor Grace, from Bristol, with part of the crew of the 1,670-ton iron screw steamer Wolveston, Captain Williams, of West Hartlepool, England, which, with a crew of twenty-three men, was bound for New York, in ballast, and which foundered at sea, Sept. 22, at 4 p. m.

On the 23, fifty-one miles from Cape St. Francis, the Arctic picked up a boat containing these survivors: E. Ewing Cole, mate; William Legg, carpenter; William Archer, cook; George O'Connell, James Hall and Samuel Davis, able seamen, Charles Watt, chief engineer, William Dunn, third engineer and Thomas Bullock, fireman. The Wolveston sprung a leak and on the waters putting out her fires, becoming unmanageable. The captain, with nine, left in the life boat, and the second mate, with two others in the gig. The latter party is supposed to have joined the captain afterward.

An Ex-Convict's Crime.

SEYMOUR, Ind., Oct. 17.—Willie Newcomb, an ex-convict who has served a term for killing Frank Browning, and was released two years ago, quarreled with John Colvin, an inoffensive youth of twenty, and plunged a knife-blade into his chest, the thrust sweeping downward and penetrating the abdominal cavity. The thrust is regarded as fatal. Newcomb's arrest followed, and he was removed to the Brownstown jail. Great excitement attended the murderous assault, and there is danger that Newcomb will be lynched if Colvin dies. The jail is a frail structure that would quickly yield to the determined attack of a mob.

Surveying a Railroad.

INDIANAPOLIS, Oct. 17.—The Indianapolis, Rockport and Chattanooga railroad is beginning to look like a reality. The surveyors are running the line from Ferdinand to French Lick Springs this week. The survey is pushed as rapidly as possible, and it is a known fact that there is big money behind the scheme. Elections will be called in the townships through which the road is to pass to vote on donating a 2 per cent. tax.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & MCCARTHY,
Proprietors.

SATURDAY, OCTOBER 17, 1891.

MAJOR McKINLEY has a good deal to say about "short dollars." And, yet isn't his party responsible for all the "short dollars" now in circulation?

Ohio Republicans regret that Governor Campbell ever got well enough to take the stump. The Democracy's prospects have been growing brighter ever since his first speech in the present campaign.

SPEAKING of a big Republican barbecue at Dayton, O., the Cincinnati Post says several oxen were served in "true Kentucky style." As the Ohioans have got to doing things in "Kentucky style," look out for a big Democratic victory next month.

THE Farmers' Alliance Herald of Mt. Gilead, O., has come out for Governor Campbell. It says he comes nearer pleasing the People's party advocates than McKinley. If the Third party unites with Democracy, look out for a Republican rout next month.

HENDERSON, Ky., has been granted her application for free mail delivery and the order will go into effect Nov. 1st. Maysville's application for the service was filed at the same time as Henderson's, but the City Council here delayed doing a plain public duty, and as a result there is no telling now when we will have free delivery of mails.

A YEAR ago Mr. McKinley could hardly find words strong enough to express his contempt and horror for cheapness. "Cheap clothes make a cheap man!" he cried. Now he is doing his utmost to prove that the tariff has actually brought about this very cheapness. Thus he "wires in and wires out and leaves the matter still in doubt whether the snake that made the track was going in or coming back."—New York World.

REPUBLICAN campaigners in Ohio are appealing to the people to vote to sustain the McKinley bill and its author. It has made sugar cheaper, and binding twine cheaper and steel rails cheaper, they say, but they don't explain why. Sugar is cheaper because the tariff on sugar was reduced, and the same is true as to binding twine and steel rails. The effect of the McKinley bill is a strong argument in favor of the position the Democrats have held all along in this fight.

RAILROAD kings are ungrateful. The Louisville Times says that city "has voted millions to railroads on a promise of cheap coal, but whenever the Ohio runs dry Kentucky coal takes a hop, skip and jump to the top of the market." This does not affect the well-to-do, who are able to fill their cellars in July and August, but it crushes the man who lives off his daily wages.

Government control of railroads is a subject widely discussed nowadays, and the above from the Times is one of the strongest arguments in favor of the question.

KENTUCKY's new Adjutant General is proving to be an excellent official. Governor Brown didn't make a mistake in placing Captain Jack Gross in his Cabinet. Mr. Gross is letting the Kentucky State Guard know that they can't draw any money through him from the treasury unless they are entitled to it. He scaled their bill for camp supplies from \$4,000 to \$2,000, and now he declines to pay them \$5,000 for their week's services. He says they are not entitled to it, because they were called out for military instructions and not for active duty, and he quotes the law to show he is right in the position he has taken.

A Pauper County.
A special from Frankfort says: "The formation of the counties has been an expensive luxury to the tax-payers. This fact was forcibly impressed upon the State Auditor's office Thursday by the presentation of claims from Knott county for more than \$820 for record books alone. The county, at the time of its organization in 1885, cost the State \$1,227 for law books furnished the county court house. The total gross revenue collected from the county since its organization was \$12,750, and the total amount paid during that time for books alone was \$4,455.60, of which sum more than \$1,300 was paid out for the present year, being nearly one-half of \$2,795, the total amount of taxes for the year charged to the county on a taxable valuation of \$657,682. In view of the fact that Knott County has paid into the treasury \$2,130 and drew out of it \$10,247.33, it would appear that the demand for law and records is largely out of all proportion to the population and property valuation."

See the great variety of coal vases just opened at Frank Owens Hardware Co's. ti

For the Farmer.

C. T. Mason, of Christian County, planted six acres of cotton this season, which, it is thought, will yield three-fourths of a bale to the acre. He intends to plant a hundred acres next year. Samples of his cotton have been pronounced first-class.

The number of sheep in the United States on January 1, 1890, was 44,336,072, worth an average of \$2.25 each, or \$100,259,761. On January 1, 1891, there was 43,431,136, worth an average of \$2.50, or \$108,577,447. The average clip is about six pounds four ounces.

Lehman & Bro., of Baltimore, dealers in heavy export cattle, have bought in the counties of Boyle, Lincoln and Garrard, for delivery during the first of next month, over 700 head of beefs, to be used in the foreign markets during the Christmas holidays. These cattle were sold at from 4 1/2 to 5 cents per pound, and the gross amount realized will approximate \$75,000. They bought at Danville Thursday 265 head that will average nearly 1,500 pounds each, at 5 cents per pound.

Real Estate Transfers.

John W. Bramel, executor of John Bramel, to Turner Bramel, an undivided half interest in 384 acres, three roods and thirty poles on the North Fork; consideration, \$9,621.35.

Turner Bramel and wife to John W. Bramel, 384 acres, three roods and thirty-four poles on North Fork; consideration, \$19,242.70.

E. C. Myall to W. W. Ball, a house and lot in Chester; consideration, \$650 cash and other valuable consideration.

John D. Roe and wife to R. A. Lindsay, a lot and warehouse in Orangeburg; consideration, \$300.

H. H. King and wife to Thomas Lally, about fifty acres of land on Mill Creek; consideration, \$150 per acre.

C. W. Howard to Ben. T. Stevenson, thirty-two and one-quarter acres on the North Fork, near Murphysville; consideration, \$600.

Bracken Circuit Court Notes.

The case of Mrs. Shoafstall vs. the Maysville and Big Sandy Railroad for damages resulting from running the road along Third street, Augusta, next to her property, resulted in a verdict for the plaintiff for \$500.

In the case of N. E. & H. T. Bradford vs. the C. and O. Railroad for damages to a car-load of eggs shipped to Philadelphia, the Bradfords recovered a judgment for \$400.

The case of the M. and B. S. Railroad, for the use of the Guarantee Committee of Maysville, vs. the city of Augusta, was continued till next term.

Here and There.

Rev. W. H. Rowland, of Carlisle, was the guest of Rev. J. E. Wright this morning.

Mrs. Julia R. Lashbrooke and son, E. L. Lashbrooke, of New Orleans, La., left for home Thursday morning, after a visit here with relatives.

Dr. and Mrs. A. H. Wall left on the morning train for Mt. Sterling to visit their daughter, Mrs. Judge Apperson. They will be absent about two weeks.

Mrs. Hannah Mullins and Miss Mary Burke arrived home yesterday from their trip to Europe. They were passengers on the steamer Alaska which passed through the heavy storm that has recently been raging on the Atlantic.

A Favorite Remedy.

Chamberlain's Cough Remedy is a favorite during the winter months on account of its great success in the cure of colds. There is nothing that will loosen a severe cold so quickly, or as promptly relieve the lungs. Then it counteracts any tendency toward pneumonia. It is pleasant and safe to take, and fully worthy of its popularity. For sale by Power & Reynolds.

Attention, Canton.

All members of Canton No. 2 will meet at their hall at 7:30 o'clock Monday evening, in full uniform, as there is special business of importance to be attended to. T. H. N. SMITH, Captain.

A Tobacco Premium.

Premium of \$10 for best sample six hands bright leaf tobacco. Award to be made December 15th, 1891. DULEY & BALDWIN.

In The Forum for November Edward Freeman, the English historian, the highest living authority perhaps on the subject, explains the political situation in Europe, pointing out the specific dangers to peace. Another remarkable article will appear in the same number on the armies and politics of Europe, from an American point of view, by Mr. William R. Thayer, who records the result of studies recently made in Europe of the political and military situation. These two articles together make a complete review of the present European situation, and give a clear understanding of the status of each of the great powers.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

MAYSVILLE'S OPPORTUNITY.

She Should Avail Herself of the Many Advantages Offered by Fuel Gas.

Now is the opportunity for the people of Maysville to secure an enterprise that will be of greater benefit and will be more instrumental in building up the city, in increasing the value of property, bringing manufacturers here and giving to the people a cheaper fuel than is enjoyed by any other people on earth, except those that have natural gas.

The Maysville Fuel, Light and Steel Company has been regularly incorporated under the laws of the State of Kentucky, and by its articles, its capital is sixty thousand dollars, in shares of \$100 each, with the right to increase the capital to any sum not exceeding \$500,000 and to organize when \$40,000 of the stock therein is subscribed.

The business of the company is the manufacturing of fuel and illuminating gas, and the making of iron and steel.

On October 1st last, there then being \$40,700 of stock subscribed, the company was organized by the election of seven Directors, namely: Judge Thos. R. Phister, Dr. John M. Frazee, Col. Frank S. Owens, W. H. Harris, J. O. Lee, Daniel Perrine and W. W. Ball, and afterwards at a Directors' meeting Dr. John M. Frazee was elected President, Judge Thos. R. Phister Vice President, W. W. Ball Secretary and Treasurer and J. O. Lee Manager.

The same evening an ordinance was offered, praying the Council of the city of Maysville for permission or a franchise to pipe the streets of the city, to furnish its people fuel gas, which ordinance was referred to the Committee on Laws and Ordinances, for them to report at the next Council meeting, (Nov. 5th next).

Now this publication is for the purpose of giving those who desire to take stock in this company an opportunity to do so. We yet want about \$74,000 subscribed, and desire it taken by our home people, and by the many. We have every reason to believe that there was never anything started in Maysville that will give greater returns for the investment, (except it be the investment made by the original subscribers to the stock in the Harris process in making gas). We can make gas cheaper than it ever before was made on earth, and can furnish it to the people at a sum less than their coal now costs them, (not considering the question of the saving and cleanliness by being rid of the smoke, ashes and soot), and then make a good dividend to the stockholders.

As to the making of steel, the plant will be erected at the point where the gas plant now stands, and will begin by making from twenty to twenty-five tons of steel per day, and by a process by which it is claimed it can be made at least \$4 per ton cheaper than any other known, which added to the profits of other steel companies will make a big dividend-paying concern of itself.

Besides, look at the advantage the starting of the concern will be to the city and its people. The putting down of the gas mains will give employment to a great number of laborers, and then the steel plant will bring skilled workmen here and give steady employment to from fifty to seventy-five men. And it may bring other enterprises here, which will add to our population and taxable wealth.

Now, let those who desire to see old Maysville wake up and who want to see manufactures started here, subscribe for stock in this company. We ask for no bonus. You can do so by calling on the undersigned. Respectfully,

W. W. BALL, Secretary and Treasurer.

A Few Good Ones.

I wrote her an elegant poem
That bristled with fancies sublime;
It overflowed with the fervor of passion
And my heart to its music kept time.
I gazed, and asked her to read it,
When she flushed she looked up and giggled
And murmured, "Oh, isn't it cute!"
—New York Herald.

Rev. B. W. MEANE is preaching for Dr. Scudder, at Elizaville, this morning and this evening, but expects to return on the night train and fill his pulpit to-morrow.

There was a great man from Can-tun,
Who carried a very big tariff gun
When he got his gun loaded
The den thing exploded,
Alas! for the man from Can-tun.

notified through his attorney, M. C.
Hutchins, that a pension of \$8 per month
has been granted him from October 31,
1890.

PREACHING in the Central Presbyterian
Church to-morrow at 11 o'clock. Sub-
ject: "The World Reproving the Church."
Preaching in the evening at 7 instead of
7:30.

THE Kentucky Central passenger train
yesterday morning was about two hours
late in arriving here. The delay occurred
at the tunnel, where a force of workmen
are engaged making repairs.

REV. S. G. POLLARD, who was assigned
by the late M. E. Conference to Williams-
burg, has been transferred to the Ohio
Conference, and has been appointed to
Groesbeck, near College Hill, O.

THE congregation of the M. E. Church,
South, will worship at the opera house
to-morrow. Preaching at 11 a. m. and 7
p. m. The house will be heated and
made comfortable for all. Everybody
invited.

DR. W. L. MANCHESTER, of Sardinia,
Brown County, deserted his wife and
adopted child, and eloped with Miss
Millic Wilder, the seventeen-year-old
daughter of C. S. Wilder, a blacksmith of
the town.

THE pick-pockets and other light-
fingered gentry had a pic-nic in the big
crowd at Lexington Thursday. They got
\$110 from Judge Long, of Henry County,
\$80 from a friend of his and \$211 from
another party.

RUTH has become a very popular
name since the christening of Ex-Presi-
dent Cleveland's little daughter. The
editor of the Carter County Bugle has
christened a late addition to his family
"Ruth Essie."

MR. M. M. DURRETT, the attorney, is
exceedingly happy to-day, as he is the
proud papa and Colonel Alex. Mont-
gomery the delighted grandfather of the
finest baby boy in Covington.—Covington
Commonwealth, Oct. 14th.

AT Vanceburg, Miss Hattie Grimes, a
comely maiden of twenty-one summers,
brought suit against Thomas McCarthy
Thursday for breach of promise. She
places the damage to her feelings at
\$1,000, and had the defendant's property
attached.

MARRIED, October 14th, at No. 352 West
Eighth street, Cincinnati, by the Rev. J.
Z. Tyler, pastor of the Central Christian
Church, Mr. J. D. Quantz, V. S., of this
city, and Miss Sophia Doan, youngest
daughter of Mr. H. Doan, of Julesburg,
Colorado.

CARDS have been issued announcing
the approaching marriage of Rev. Gideon
N. Jolly, pastor of the Sardis M. E.
Church, and Miss Lorena Bratton, daugh-
ter of Mr. and Mrs. James S. Bratton.
The nuptials will be solemnized at the
church at 6 p. m. Thursday, November
5th.

IN the First Presbyterian Church a
series of sermons on the inspiration of
the sacred scriptures will be commenced
by the pastor, Rev. J. S. Hays, D. D., to-
morrow morning. Evening services com-
mence at 7 o'clock. The West Minister
League at half past 6 p. m. All are cor-
dially invited to attend.

THE interest in the meeting at the Ba-
ptist Church is increasing. There will be
preaching to-day at 3 p. m. and 7 p. m.
Preaching to-morrow at 11 a. m., 3 p. m.
and 7 p. m., by Rev. J. R. Harrison. The
sermon in the afternoon to-morrow will
be especially for the children and all the
children of the community are invited.
The public cordially invited to all these
services.

MRS. LAURA JANUARY WEBB will give a
Shakespearian recital at the opera house
next Monday night. One of her selec-
tions will be "Woman's Opportunity."
She is working in the interests of the
World's Fair at Chicago. The St. Louis
Republic says: "Her happy, self-possessed
manner has the faculty of putting the
audience at ease at once, and to leave the
hearers nothing to do except enjoy "the
feast of reason and the flow of soul."

AN old German Oddfellow came up
from Newport this week to attend the
annual session of the Grand Lodge. He
was accompanied by his wife, and the
couple were pleasantly surprised at the
extensive decorations. When they came
in view of the fine hall with its front
almost covered with flags, festoonings
and bunting, their surprise was increased.
They crossed over, made their way up
into the lodge room and admired the ele-
gant quarters for some time in silence.
Finally his wife exclaimed: "John, every-
body up here must be Oddfellows!"

CIRCUIT COURT.

Indictments Reported—The Sullivans
Granted a Separate Trial.

John Reeves was granted a divorce
from Josephine Reeves.

The grand jury reported eight indiet-
ments yesterday. Two of the indiet-
ments are against Elijah Jones, who shot
at George Brown and seriously wounded
Jim Davis at Mayslick a few weeks ago.
Wm. Osborne was indicted for cutting
Marshal Hughes at the Maysville fair,
Ed. Workman for attempting to cut
Deputy Sheriff Jefferson at German-
town fair, Wash Taylor for cutting Dick
Boston at same fair and Isaac Keith for
forgery.

In the case of the Commonwealth
against Augustus and Samuel C. Sul-
livan for the murder of Thomas A.
Broshers, the defendants moved for a
separate trial, which was granted. The
case is set for next Tuesday. Sheriff
Alexander was ordered to summon 100
jurors from Fleming County to be on
hand Tuesday morning.

All common law cases were passed un-
til next Monday week, the 12th day of
the term.

THE WEEKLY BULLETIN's subscrip-
tion list is growing right along. If you are not
taking it, subscribe now. It costs but
\$1.50 a year.

MR. WM. T. NICHOLSON, who was nomi-
nated for Grand Warden of the Grand
Lodge of Oddfellows this week, is a resi-
dent of Ashland and not of Fulton.

SAN FRANCISCO, October 6, 1891.—Seals
are now being killed by the hundreds.
One schooner brought into port yester-
day over fifteen hundred skins. Every
indication of extreme cold weather, the
fur being finer than seen for years. The
style finished coal vases, are neater in
style and greater in variety, lower in
price, at Frank Owens Hard Hardware
Company's than for years. Call and see
before purchasing elsewhere.

ONE of Foster's storm waves is billed to
cross the continent next week. He says
the wave following it will bring rains,
and adds: "The last days of October will
give evidence of the sudden changes, rug-
ged winter and extremes of weather that
are immediately before us. The snow,
October 6th, was the earliest that has
fallen in the western corn belt for sixteen
years, and the next earliest was October
24, 1883. The frost on the night of 6th
and 7th was fifteen days earlier than the
average. Thus, in a general way, my
forecasts are being verified, although oc-
casionally I miss some of the details."

MINER'S MAXIMS.

TORTURE Can Be Endured With Sublime
Fortitude When the Shoe That Pinch-
es Happens to be on Somebody Else's
Foot.

Don't go into a store into
which you carry with you any
feelings of uncertainty. You are
willing to see people take what
belongs to them, but there is one
thing you are not willing to see
them take—advantage of you.

Now Shoes are exchanged for
money. Money is a known
quantity, so that you understand
to a fraction what its value is.
As there is no mystery, there-
fore, about the worth of what
you part with, so there should
be no mystery about the other
side of the transaction.

What you want to know is
that it is a fair exchange; that
it is a case of give as well as of
take. How are you going to
know it? Can you figure out the
cost of workmanship, the cost of
materials and all the other prob-
lems involved in producing and
disposing of a pair of Shoes?
Failing in this, what is your al-
ternative?

MINER affords you a safe one.
He will see to it that you get
what you pay for as well as pay
for what you get. He knows
just what Shoes are worth, and
not for a cent more than they
are worth will he ever ask.

MINER
58 YEARS
SELLING GOOD SHOES.

The best makes of PERFUMES in the market. A complete line of SOAPS, SPONGES, CHAM-
OIS, &c. Special attention given to prescriptions.

POWER & REYNOLDS.

A FACT!

We made the following proposition
to a man who was about to visit Cin-
cinnati and Louisville: If Web-
ster's International Dictionary, with
Noyes' No. 19 Stand could be bought
for less than we could sell them to him, in either of the above cities, we would sell him one for one
dollar less than their (Cincinnati and Louisville) price. He came back and bought our Dictionary
and Stand for \$13.50, and said it was one dollar and twenty-five cents cheaper than the best houses
in the other cities would sell it to him for. TEACHERS, can you do without one? PARENTS, it is
brain food for your children. Keep one where they can peruse it at any time. PROFESSIONAL
PEOPLE, you know its value; now get one while we are making a run on them.

Best Sheep Binding, Plain, with Wire Stand.....\$10 75

Best Sheep Binding, Index, with Revolving Stand..... 13 50

We have only a few to sell at these prices. Christmas is coming. Be ye ready; we are. Santa
Claus is with us. Keep your eye on us. We will interest you. Respectfully,

KACKLEY & McDOUGLE,
WEST SECOND STREET.

Good Clothing At Moderate Prices

BROWNING & CO.'S

Buyers having returned from New York, they are now prepared
to exhibit to their patrons the largest and best selected stock of
Dry Goods ever shown in this city.

DRESS GOODS:

In this department we have the advantage of having
made our selection in person from the largest stock in
New York City, and are showing many styles in Boucle
and Camel's Hair effects that cannot be seen elsewhere.
Our Black Goods stock is simply perfect. We show
everything that is desirable in Black Dress Goods from
25c. to \$1.50 per yard.

HOSIERY:

Our stock of Hosiery is complete. The merits of our
Ethiopian Dye Black Hosiery is so well known that it
is only necessary for us to say that our line for Ladies,
Gents and Children, for Fall, have been received. As
usual, our prices on Domestic are the lowest. We
mention a few jobs: 5,000 yards Oil Red Figured Cal-
ico, worth 7 1-2c., at 5c.; good quality Canton, 5c.

CLOAKS:

Our Cloak Department is now open. Our garments
are all made for us to order, and in material, fit and
finish are not equaled in the market. You will make
a mistake if you buy a Cloak without seeing our stock.

BROWNING & CO.

3 EAST SECOND STREET.

MORE IMPROVEMENT

Condition of Business During the Past Week.

R. G. DUN'S REVIEW OF TRADE.

The Only Complaint Comes from the East, Where the Result of the Harvesting Has Not Been Fully Realized—At All Other Places There is No Occasion for Complaint.

NEW YORK, Oct. 17.—R. G. Dun & Company's weekly review of trade says: Business throughout the west and south is strong and improving. At eastern centres there is less satisfaction, and the expected results from the harvesting of large crops are more slowly realized. Yet the volume of all trade, as shown by payments through clearing houses outside New York, is as large as it ever has been, and for October may even surpass the unprecedented record of last year.

The output of furnaces in blast last October was 188,651 tons weekly, against 170,949 Sept. 1, and 179,263 a year ago. The largest output of iron ever reported was 183,846 Dec. 1, 1890. Yet this enormous production is marvellously absorbed, for stocks of coke iron are not larger than a month ago, and of anthracite and charcoal iron a little smaller.

The wool manufacturer is short of orders in the men's wear department, though Chicago clothiers are buying more freely. But on the whole clothiers have not taken nearly their usual supply of goods, and many of the mills are closing. The demand for dress goods is strong, and many new and superior qualities are offered, while knit goods are dull as well as carpets. The cotton manufacturer is active without change in prices. The demand for copper is large, but a rumor of resumption by the Anaconda put down the price of lake to 12.15 cents, and tin is weak at 20.10, with lead at 4.45. The market for anthracite coal is better, but circular prices are not realized.

The reports from other cities are almost uniformly encouraging. At Boston, the boot and shoe and leather trades are quiet and domestic hides are dull. The demand for wool is fair at firm prices. At Philadelphia, more inquiry is seen for manufactured iron, pipe is active and structural iron in brisk demand. Trade in boots and shoes is satisfactory, and the movement of wool is small and woolen goods are dull. At Pittsburgh, the demand for manufactured iron, and especially for structural forms is improving, but the coal strike continues. At Cleveland, trade exceeds last year's considerably, and is brisk at Cincinnati, especially in dry goods.

At Chicago the clothing and dry goods trades are active, and the movement of farm products large, though receipts of cattle fall below last year's. At Detroit manufacturing is active and factories running full time; at Milwaukee, St. Paul, Minneapolis, Omaha and Kansas City, business is very active, especially in lumber at Minneapolis, with advance in prices, while the output of flour is 195,000 barrels per week, against 151,000 last year. At St. Louis trade is unusually strong; at Louisville, Nashville and New Orleans improving; at Montgomery, Charleston and Savannah receipts of cotton are very large and business growing, and at Jacksonville the largest orange crop ever grown promises improvement in trade.

Speculation has not been very heavy, though corn and oats are sustained in the face of great crops, and wheat is a shade higher. Cotton is a quarter lower with sales of 727,000 bales here, receipts being so heavy that short crop theories are discredited, while southern prices are relatively too high for Liverpool. Pork products are lower, coffee unchanged and half a cent lower. Foreign trade, though smaller than a year ago, when the movement was extraordinary, is nevertheless larger than in previous years, and the heavy exports of breadstuffs promise further reinforcements of gold from Europe.

The business failures during the last seven days number, for the United States 227, and for Canada 32, or total of 259, as compared with totals of 270 for last week and 230 for the week previous to the last. For the corresponding week of last year the figures were 227, representing 186 failures in the United States and 29 in the Dominion of Canada.

HANGED TWICE.

Another Horrifying Scene at a Bungled Execution.

REDWOOD FALLS, Minn., Oct. 17.—William Rose was hanged Friday under the new law which requires that all executions must take place between midnight and dawn and out of sight of all newspaper men.

A dreadful scene was enacted at the execution. The prisoner was awakened at 4 o'clock, ate a hearty meal, heard the reading of the death warrant with great coolness and mounted the gallows with a firm step. He made a short speech, in which he protested his innocence, and accused a man named Stover of the crime. The trap was sprung at 4:56 a. m. There was a dull crash and the rope parted three feet from the neck. Without a word being spoken by anyone, the limp body was picked up, carried on the platform, laid down, face upwards on the readjusted trap. The second noose dangling from above was pulled down, adjusted quickly and the trap again sprung without any attempt to raise him to his feet. Then ensued a slow process of strangulation. The trap was sprung the second time at exactly 5 o'clock.

Rose had killed his sweetheart's father because he opposed him. She afterward suicided. He left a letter protesting his innocence.

Out Only Ten Minutes.

NEW YORK, Oct. 17.—Sylvester Franklin Wilson, the proprietor of a female baseball team, who has been on trial here for the past several days charged with abducting sixteen-year-old Libbie Sunderland, of Birmingham, N. Y., was convicted yesterday evening of the crime. The jury was out but ten minutes. Under his conviction, Wilson is liable to be sentenced to five years' imprisonment, and a fine of \$1,000.

CANADIAN CATTLE.

Not as Acceptable to the Britons as Those We Send.

WASHINGTON, Oct. 17.—Persistent complaint is again being made in London that American cattle are often in distressing condition when landed from the poorly-equipped cattle steamers. But it is noticeable that these complaints are made against the steamers which sail from Montreal, Halifax, and other Canadian ports. The acting chief of the bureau of animal industry of the agricultural department, says there has not been a single complaint against shipments from United States ports since the agricultural department began to inspect.

This inspection has been in operation only three months, but it has already driven out the "tramp" steamers or has compelled them to fit up their stalls and food facilities as well as the regular liners. The success of the inspection means much to cattle exporters for the bad condition of United States cattle steamers has long been one of the chief objections in England to the sick and maimed cattle which were received from these ships. This objection is now entirely removed, and it is noticeable that the outcry in London is directed entirely against Canadian cattle steamers.

A DEPLORABLE CASE.

Wealthy College Girl, Charged With Theft, Drowns Herself.

NORTHAMPTON, Mass., Oct. 17.—Miss Laura Presbey, one of the wealthiest and brightest students of Smith college, was detected in the act of robbing one of her collegemates Wednesday, and now has disappeared under circumstances that point strongly to suicide. For some time her schoolmates had been missing small sums. Monday she was detected taking money from the pocketbook of a classmate. She was summoned before the president, and finally broke down and acknowledged the theft.

She said she did not know why she did it, as she had plenty of money of her own, and her father never stinted her in anything. Then she was requested to meet the president that afternoon at 5 o'clock, when it was supposed her father would be on hand. When he came she had disappeared. In her room was found a note, addressed to her father, saying that she could not live to endure the disgrace. She intimated that she would drown herself in the river in Paradise, a favorite spot where the girls were in the habit of sitting by a deep, sheltered pool, and where but a short distance below there is a strong current.

MOLTEN METAL

Explodes With Serious Results at Findlay, Ohio.

FINDLAY, Oct. 17.—A serious accident occurred at the foundry of Heck, Munslow & Company, about 6 o'clock Friday morning, which resulted in the probably fatal injury of two men. The force was engaged in taking off a heat, John Stubaugh and Henry Colley carrying about a vat of molten iron and pouring it into the various molds. While engaged at this one of the molds at which they were working exploded with a loud report, scattering the white-hot metal in all directions. Both men received the greater part of it. Stubaugh being struck about the face and shoulders. The other man was badly burned about the chest. The burns are very serious ones, and the men were conveyed to their homes, where they are suffering intensely, with little hope of recovery.

Fell Down the Slope.

ASHLAND, Pa., Oct. 17.—Frank Shille, aged twenty-four years, while at work in the Lawrence and Brown colliery last night, fell down the slope and was instantly killed. Shille and several other miners had been hoisted to the surface and were getting out of the car when it started back. One of the miners was falling when Shille sprang and saved him, but fell down the slope himself.

Little Child Fatally Burned.

WAPAKONETA, O., Oct. 17.—Hazel, the six-months' old daughter of Thomas Bay, residing four miles west of this place, was terribly burned yesterday. Mrs. Bay had gone into another room, and left the child sitting in its high chair near the stove. Upon returning, she found her babe had upset the chair, and was lying upon the red hot stove with her face burned to a crisp. There is no hope of the child's recovery.

Shot By an Officer.

UTICA, N. Y., Oct. 17.—A dispatch from Middletown, Herkimer county, says: Constable C. M. Gridley, of New Hartford, shot and killed Dan French, also of New Hartford, in the village of Norway, Thursday night, while the latter was running away to escape arrest. French was wanted for highway robbery.

School House Fire.

WAPAKONETA, O., Oct. 17.—Shortly before the school hour Friday morning, the large and handsome union school building here was discovered on fire, and before the flames were extinguished damage to the amount of \$80,000 was done. The fire caught from the natural gas furnace.

Blockade Raised.

SAULT STE. MARIE, Mich., Oct. 17.—The blockade caused by the sinking of the Susan Peck in the channel at Lake George flats was raised yesterday, the propeller Monarch being the first boat to come through. She reached here at 9 o'clock yesterday morning bound up.

Ministerial Call Accepted.

BOSTON, Oct. 17.—The call recently extended by Emmanuel Church of Chicago to the Rev. Orrin P. Gifford, of the Brooklyn Baptist church, has been accepted. His salary will be \$6,000.

A Chicago Failure.

CHICAGO, Oct. 17.—The Ayres & Wygant company, dealers in pianos and music at 183 and 184 Wabash avenue, made an assignment yesterday for the benefit of its creditors. The assets and liabilities are about \$60,000.

Death of an Old Railroad Man.

SAN FRANCISCO, Oct. 17.—Major Robert H. Nelson, who for nineteen years was secretary to President Blackstone of the Chicago and Alton railroad, died yesterday at Los Angeles.

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation.
